

## **Accident Scene Management, Inc. (ASMI) Trained Eight New Instructors and Two Instructor Trainers in October 2006**

Waukesha, WI - Accident Scene Management, Inc. (ASMI) trained eight new instructors and two instructor trainers October 20-22<sup>nd</sup> in Waukesha, WI! Lead Instructors must be EMT or higher in medical training and be a motorcyclist. Twenty-two states now offer “*A Crash Course for the Motorcyclist*” to motorcyclists and “*Anatomy of a Motorcycle Crash*” for professional rescuers.

ASMI has trained over 8000 people how to respond to a motorcycle crash since they began training in January of 1997. ASMI is a non-profit organization that is dedicated to reducing injuries and fatalities to motorcyclists. Stories of successful “saves” continue to be shared with ASMI. In a 2005 survey of our students, 29% had used the information since taking the class. Our goal is to be able to have instructors in every state some day. To find out if there is an instructor or a class near you, visit our website at [www.accidentscene.org](http://www.accidentscene.org).
